EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ron Jacobs on 29 March 2006.

The application has been amended as follows:

In the claims:

- a. In claim 5 at lines 2-3, please delete the phrase "wherein said fluidic network further comprises said mixing chamber," after the words "side channel ports,".
- b. In claim 17 at line 9, please delete "a voltage source for applying an alternating current (A/C) electric field" and insert --an alternating current (A/C) voltage source for applying an A/C electric field-- before the phrase "via said side channel".
- c. Please cancel claims 29-40.

2. The following is an examiner's statement of reasons for allowance:

Claim 3 was indicated allowable for reasons given in the Office Action of 5 December 2005. Claim 17 requires a structure that is capable of application of an A/C electric field via side channel ports (Lines 9-10), and requires a liquid channel to

connect the side channel port to a mixing chamber. (Lines 4-7) No such structure is defined in the prior art of record. A reasonably broad reading of the term "side channel port" would include the electrical lines connected to the electrodes (32, 34) of Ahn et al (Figure 3), but there is no disclosure or suggestion that these "ports" can be connected to the mixing chamber by a liquid channel. The devices of Ahn et al and Paul et al require the electrodes to be disposed directly on the portion of the device where mixing is to occur, with no teaching of an A/C voltage source that can apply a signal via side channel ports that are connected to a mixing chamber by liquid channels.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Jeffrey T. Barton whose telephone number is (571) 272-1307. The examiner can normally be reached on M-F 9:00AM - 5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam Nguyen can be reached on (571) 272-1342. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
